DXpedition News

Kingman Reef - KH5K An international group of DXers plans to operate from Kingman and Palmyra (OC-85) in late April, with seven days on each island, all bands and modes. This will be a popular trip, as Kingman ranks 30th in The DX Bulletin's 1987 Most Wanted survey, and 5th in Europe. Tentative callsigns are K9AJ/KH5 on Kingman, and WØRLX/KH5 on Palmyra. QSL to WA2MOE. More details to come.

Bouvet - 3Y With any luck, SM7DSE will operate as 3YØFP for a few hours or days around now, while a crew from the West German ship Polarstern services the automated weather station on Bouvet (AN-Ø2). Watch 14Ø65 CW and 1431Ø SSB, as well as 1Ø117 and 7ØØ7 kHz. QSL to SKØMT.

Edited by Chod Harris VP2ML

The DX Bulletin

America's Premier Weekly Amateur Radio Publication

United Arab Emirates - A6 Late word from Japan says Jacky F2CW operated from the QTH of A61AB for a week, ending Mar. 5. QSL to Jacky's 1988 Callbook address.

Howland Is. - KH1 Jim Smith VK9NS's DXpedition is scheduled to leave Tawara March 23, to arrive on Howland Mar. 25 or 26. All bands and modes, including RTTY and 6 meters, and KH1's first YL operation. Tentative call is NO1Z/AH1. QSL to HIDXA, Box 9Ø, Norfolk Is., South Pacific 2899.

Sri Lanka - 4S7 The Colvins finally got on the air again as 4S7/W6KG (AS-Ø3) in mid-February, for a three-week stay. They were unable to operate from S2, but will try again before they return to the States in April. Next stop: Singapore 9V.

Fiji - 3D2 Karl DL1VU is now on Fiji (OC-16) as 3D2VU (see Bandpass.) QSL to DB5UJ. Sunrise 18Ø6Z, sunset Ø624Z.

Minami Torishima - JD1 Charlie KA2CC will operate from this one (OC-73) Mar. 4-11, according to DX-NL. 1Ø-2ØM SSB, no lists, nets nor break-ins. He'll use split operation for Europe. QSL 1988 CBA.

St. Kitts - V47 Bob WB1AUW will be /V47 Mar. 13-21. He'll be in the bottom 1Ø kHz of 4Ø and 8Ø CW, especially evenings. He'll also be on 14236 and 28480 kHz SSB, and 14Ø25 and 21Ø25 kHz CW, listening up 2-3. Sunrise 1Ø2ØZ, sunset 2215Z. QSL home call, bureau okay, donations are appreciated.

Zone 2 Andy VE1ASJ will operate from Resolute Bay on Cornwallis Island (NA-Ø9), just a few miles from the North Magnetic Pole, Mar. 5-19th, as part of the Ski-Trek trip. Watch 1832, 3502, 7002, 14Ø2Ø, 21Ø2Ø, and 28Ø2Ø kHz on CW and 3795, 7062, 14125, 14195, 21295, and 28495 kHz on SSB, with possible calls of VE8CW, CI8CW or CI8C. QSL VE1DH or via VE1 bureau.

Reserve Your Island

Curaco - PJ2 Bob N5RM will sign /PJ2 May 24-31. During WPX SSB he'll sign PJØR. He landed permission to operate a KW on 16Ø for the test.

French Guyana- FY Olli OH2BBM will be on for the ARRL SSB test as FY5YE, in an training exercise aimed at the CQWW SSB test. QSL to W5JLU.

Bahamas - C6 Several hams will operate as C6A/WS4E in the ARRL SSB test.

Shortly Noted

- PYØFC returns to Fernando de Noronha Mar. 1 for a short visit.
- IAØPS is the call of an Italian Antarctic station, around 14295 kHz. (Tnx DX-NL.)
- KC4AAA closed down for the winter Feb. 14, but KC4USV is on 7286 kHz when 2Ø shuts down, and KC4AAC works DX after running phone patches on 14326 kHz at Ø3ØØZ.
- TPØCE will be the call of the Council of Europe Mar. 11-13, and again June 24-26. QSL CW contacts to F6EYS, SSB to F6FQK.
- Rumors suggest NY6M will be on from Midway Is. /KH4 around now.

Shortly Noted

- 8Ø Meter regulars include 3B8CF 3507 at Ø2ØØZ; TA4A 3501 ØØØØZ; and J25US 3505 Ø13ØZ. WY5L/KH3 is often on 75M at 11ØØZ.
- 4Ø Meter activity features 4K1J 7ØØ6 Ø13ØZ; 5H1HK 7Ø12 153ØZ; FT5ZB Ø13ØZ and 13ØØZ; J25US 7Ø1Ø Ø245Z; and VU2TJW 7ØØ3 Ø145Z and 113ØZ.
- 2Ø Meter stations are 4K1J 14Ø27 Ø1ØØZ; BY4RB 14Ø25 ØØ3ØZ; LU1ZA 14243 Ø3-Ø5ØØZ; and YI1BGD 14198 133ØZ.
- 2Ø Meter SSB Net check-ins include A92BE, S92LB, TL8DN, TL8HW, TJ1BP, OY9A, SØRASD, 6W6JX, FT5ZB, and 1Z9A.

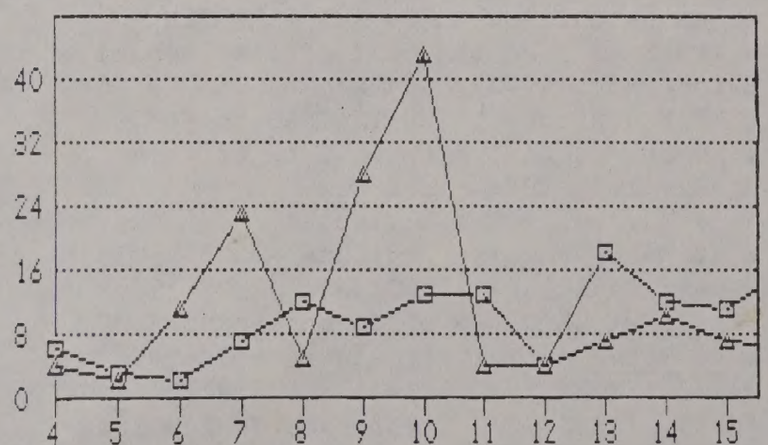
Propagation Watch

The DX Bulletin's propagation forecast for the ARRL CW Test was right on. Low bands are very good to excellent, especially Saturday. Absorption began to build on Sunday, as the geomagnetic field began to be affected by particles from the sun. The only real disappointment came from the lack of good 10-meter openings. North-south propagation on 10 was good, but the higher latitude openings didn't occur. Maybe next year. Conditions were good enough for former The DX Bulletin editor Jim Cain K1TN, operating as VP2MDC at The Last Resort, to make 3950 QSOs with only 70 watts, for a score of 3.3 million.

The good news was that a major solar storm hit just after the contest ended. Within hours of the end of the test, the planetary K index soared to 8, which is roughly equivalent of an A-index reading of 240! The planetary a index hit 123 for Feb. 22, an excellent day to re-establish relationships within the DXer's family.

The propagation for ARRL SSB should repeat the conditions of the CW test, without the disturbance on Sunday. If the sun holds true to form, expect low absorption and solar flux in the 103-109 range. This should mean good low band propagation, excellent 20m and 15 meter openings, and only a hint of 10 meters.

For the 10 days after the contest, we can expect increased absorption, without much increase in solar flux. The increased absorption will shorten low-band openings and eliminate long-path propagation. But keep an ear on WWV at 18 minutes after the hour for the latest news. The best days for DX will be the 12th and 14-16th of March.



The planetary A Index 27 days (triangles) and 55 days (squares) prior to dates indicated. Planetary A-index values of 10 or less mean good low-band, polar-path, and long-path openings.

RAAG 30th Anniversary

The Radio Amateur Association of Greece (RAAG) will celebrate their 30th anniversary April 30-June 30 by using the call SX1RAAG. They will be on all bands except 17 and 12 meters. Special QSLs will be available for stations making contacts with SX1RAAG.

Jan Mayen Update

Several rumors suggested club station LA1H might be mounting a DXpedition to Jan Mayen JX. Jon Lunde LA6EDA, traffic manager for LA1H reports that LA1H will not activate JX. He says the only active amateur on the island is Svein JX8KY, who wintered over. The club station on the island, JX3P is seldom used, as only operators who have been wintering over have been allowed to operate from JX. Repeated requests for permission to operate from JX have been turned down, due to the rough conditions on the island.

DX88 International DX Weekend

The LA DX group will celebrate their 10th anniversary with a DX weekend June 4-5, at the Geilo Hotel og Turistsenter in Geilo, Norway, about four hours from Oslo. On the program will be John ON4UN, Pekka OH1RY, Martti OH2BH, Erkki OH4NRC, 3Y2GV/3Y1EE slide show, Mathias LA5NM, Erling LA6VM, and much more. Registration information from Bjorn-Henning Bergheim LA4DCA, Nebbejordet 34, N-1266 Oslo 12, Norway. Registration fee is NOK 100.

Islands On The Air

o **VE7HDX** is a resident on Salt Spring Island (NA-75). He works mostly CW on 10, 15, 20, and 160 meters, but can also be found in VK9NS's net on SSB.

o **WA9YHW/HR6** is on Roatan Island in the Bahia chain (NA-57) off the coast of Honduras. Try 14260 kHz at 0200Z.

o **Philippine Islands** Frequent DXpeditioner Bernhard Stefan DL2GAC is trying to operate from several rare islands in the Philippines, most of which lack IOTA reference numbers due to lack of activity. He started in the Sulu chain, and should be on from Busuanga Island in the Calamian group Mar. 10-20. Next stop is Basco in the Batan group for late March and early April, and then on to nearby Babuyan Islands. Around mid-April he'll try for Polilio Island. Bernhard is using his own Yaesu FT757GX II with a lightweight switching power supply, and a multi-band vertical antenna. Finally, on his way back to Germany, he'll get on again from Langkawi Island as **9M2QR**. Look for Bernhard on the usual DX frequencies on 20 and 15 meters.

o The latest Island On the Air reference list and rules are available from The DX Bulletin for $3, postpaid.

Indonesian Special Prefix

In celebration of the total eclipse of the sun on March 17, the hams on Bangka Island (OC-21) will use the special call **YE4SUN**, March 17-19, from Pangkal Pinang city. The operation will be all bands, both CW and SSB. A distinctive QSL card will be available from QSL manager YB4FNN or from the Indonesia QSL Bureau, P. O. Box 96, Jakarta 10002, Indonesia.

For the WPX SSB the same group will sign **YE4X** during the contest. Same QSL route.

Two Non-Pirates

OD5NG does not appear in the Callbook, nor in official lists of Lebanon amateurs, in an effort to maintain a low profile in the war-torn country. But he is legitimate, and QSOs after 1980 can be confirmed via manager WA1ZFS. And **TJ1AP** is also okay, but not via IK8DYD. QSL instead direct to Centre de Promotion Sociale, Box 50, Mbalmayo, Cameroon.

Key to Bandpass: Callsign, frequency, UTC, day of month state. * = long path, P = Packet. All 'portable' calls are listed with country of operation first, regardless of format used on the air.

DXpeditioners Wanted

Iam Campbell VE3IEO is looking for a photographer and a couple more DXpeditioners to join a 5-week cruise to Kingman, Palmyra, Central Kiribiti, and other islands in January 1989. The 100' brigantine schooner Varua has been chartered for the trip. Cost will be several thousand dollars. Contact Ian at his Callbook address.
